This weekend was great, I got to do a little bit of everything that I wanted. It was refreshing having two whole days to do what I wanted. I got the opportunity to explore the campus and meet some new people. It was amazing to see the campus that I have been hearing about for so many years. I was also able to get out and see the campus with some people. I wonder what the rest of this week has in store for us.

I have made some progress on the environment for the VR project. Things seem to be coming together! I have also found a great relationship between me and coffee. I have been able to enjoy a cup of coffee and relax while working on the project. Coffee has become an essential part of my daily routine.

A week of immersion has brought me back to the familiarity of being on a team. Finding a balance out your group is effectively communicating, and here I have been able to practice and perfect this skill. During the day I need to sleep at night. I have also found a great relationship between me and coffee. Coffee has become an essential part of my daily routine.

I have started framing some of my habits and allowing me to see them. I never knew how much you could learn about yourself when you pay close attention to your habits. It has been a great way to learn about vr and see ways I can incorporate it in my future career. I guess the program has been going good. The vr immersion class has been interesting and I have learned a lot. It is amazing to see the strides that people and technology, I can actually see the strides that people and technology have made in virtual reality.
